

#KI2613 | Senior Project Scheduler (m/f/d)

Valencia (Spain)

Your Tasks

Join THOST Project Management and play a key role in the successful delivery of a large-scale industrial construction programme

- Develop, maintain and continuously improve the schedules for the assigned Construction packages, ensuring alignment with project execution strategies and programme objectives
- Review contractor schedules, monitor progress and challenge scheduling assumptions where necessary to ensure realistic and achievable delivery plans
- Analyse schedule performance, critical paths, milestone status and recovery scenarios to support construction management and project management decision-making
- Coordinate scheduling interfaces between engineering, procurement, construction, permitting, commissioning and other project stakeholders
- Support weekly and monthly scheduling meetings, providing clear schedule analyses and recommendations
- Identify scheduling risks, delays and opportunities, supporting the development of practical recovery strategies
- Work closely with the IMS Scheduling Specialist to ensure alignment between package schedules and the Client Integrated Master Schedule

Your Profile

- Bachelor's or Master's Degree in Civil, Industrial, Mechanical or equivalent Engineering discipline.
- Professional Experience: Minimum 3 years of experience in project scheduling within large EPC, industrial or infrastructure projects
- Proven experience managing construction schedules for complex building or infrastructure packages
- Experience working with EPC Contractors in industrial construction environments
- Previous experience in automotive, battery manufacturing, logistics, energy or similar industrial projects is considered an advantage
- Familiarity with FIDIC contract environments is desirable
- English and Spanish — Professional working proficiency (mandatory), German — Advantageous

We offer

- Participation in interesting, challenging and future-shaping projects nationally and internationally
- Flexible working hours environment with modern digital tools
- Targeted further development of your methodological toolset and personal competencies
- Distinctive team atmosphere within our family-owned company
- Holistic climate protection policy
- Long-term career development within THOST Project Management

About us

THOST is one of the leading German companies in project management. From our locations in Germany and abroad, we manage complex projects in the fields of real estate, mobility, IT, plant engineering, infrastructure and energy. With our broad expertise in project management, we serve national and international industrial clients as well as public and private investors.
Projects are our world!
